TO LEAVE THE BEAUTIFUL EARTH FOR OUR CHILDREN IN THE FUTURE

Association for the Promotion of Electric Vehicles

Our mission

To leave the beautiful Earth for our children in the future—this is the strong desire that has driven us to establish the former Association for the Promotion of Electric Vehicles on June 29, 2010, to promote EV. Now is the time for us to fulfill our responsibility towards posterity and to take ongoing action in order that the future generations, including our children and grandchildren, can continue living a healthy life in a rich natural environment.

The shift to EV has been accelerated in the world. Various countries have stated that they will ban sales of gasoline and diesel vehicles by 2040-50 to reduce CO2 emissions. In the Japanese automobile industry, the era of next-generation environmentally friendly vehicles, such as Toyota Prius PHV and Nissan LEAF, has moved on to the second generation. Toyota MIRAI FCV has also spread widely and EV development is about to be launched by new collaborations, too.

For the maintenance of global environment and the realization of sustainable society, it is our intention to acquire broad cooperation from people in various positions throughout industries, governments and academics to exert their influences in all directions. This will realize a world where many consumers consider electric vehicles, among other candidates for personal transportation, and actually choose one. We would sincerely ask for your support.

Our Activities

Networking across various fields for the promotion of EV

Events organized by APEV

Committee meetings

Regional e-mobility promotion committee, Technical Committee, etc.
(each meeting 3-4 times a year)

Participation in EV related exhibitions

Several times a year

Lectures and symposiums

Tokyo Island Motor Show organized by the Tokyo Metropolitan Government as a cooperator
Seminars organized by our members as a cooperator
Tokyo Motor Show symposium
G7 Transport Ministers' Meeting Pre-Evet as a co-organizer (Karuzawa, Nagano), etc.

Participation in exhibitions and symposiums abroad

automechanika SHANHAI2021 「AMS Live 2021」
SWITZERLAND GLOBAL ENTERPRISE Green Mobility Symposium,
TAIPEI AMPA & AutoTronics Taipei, etc.

Sending lecturers

Embassy events in India, Israel and other countries
College of Business Administration at Ritsumeikan University
Lectures about EV/FCV in Miyako-jima island, etc.

Host events

EV Mobility Design Contest for International Students
TEAM APEV Pikes Peak EV Challenge, etc.

List of Members (as of September 2022)

Regular membership: total of 85 Corporations/Groups (Alphabetical order)

Asahi Kasei Corporation, ASKUL Corporation, ANA MOTOR SERVICE CO.,LTD, Benesse Holdings, Inc., BMW Japan Corp., Continental Automotive Corporation, DASSAULT SYSTEMES, Dana Japan, LTD., DENTSU INC., EXEDY Corporation, HINOMARU LIMOUSINE CORPORATION, Hino Motors, Ltd., HKS CO., LTD., Japan Tobacco Inc., KAJIMA CORPORATION, KOWA SEIKI CO.,LTD., Marubeni Corporation, MEIDENSHA CORPORATION, MONET Technologies Inc., NICHICON CORPORATION, Nissan Motor Co., Ltd., PIONEER CORPORATION, RICOH JAPAN Corp., PHIARO CORPORATION, Sumitomo Mitsui Auto Service Company, Limited, SUZUKI MOTOR CORPORATION, Tesla Motors, Inc., Toyota Motor Corporation,, YAMAHA MOTOR CO.,LTD., Yano Research Institute Ltd.

Special membership: total of 160

Supporting membership: total of 56

Advisory administration

Ministry of Economy, Trade and Industry,
Ministry of Land, Infrastructure, Transport and Tourism
